Breakfast

Easy Pancakes

Tags: breakfast

Servings: 2

Ingredients

- 3 eggs
- 125 g flour
- 250 ml milk
- 1 pinch sea salt
- 1 drizzle olive oil

Instructions

1. Crack the **eggs** into a blender, then add the **flour**, **milk** and **sea salt**, and blitz until smooth.
2. Pour into a bowl and leave to stand for 15 minutes.
3. Melt **olive oil** in a large non-stick frying pan on a medium heat, then tilt the pan so the butter coats the surface.
4. Pour in 1 ladle of batter and tilt again, so that the batter spreads all over the base, then cook for 1 to 2 minutes, or until it starts to come away from the sides.
5. Once golden underneath, flip the pancake over and cook for 1 further minute, or until cooked through.
6. Serve straightaway with your favourite topping.

Mexican Style Burrito

Servings: 6

Ingredients

- 75 g **cheddar cheese**
- 1 **lime**
- 1 **lime**
- 6 large **tortillas**
- 2 **fresh red chilli**
- 30 g **butter**
- 8 large **eggs**
- **salt**
- **black pepper**
- **Red Beans** (*see recipe: Shared/Red Beans*)
- **Guacamole** (*see recipe: Shared/Guacamole*)
- 200 ml **sour cream**
- 1 pinch **smoked paprika**

Cookware

- **small non-stick saucepan**
- **bowl**
- **spatula**

Instructions

1. Coarsely grate the **cheddar cheese**. Cut **lime** in half and the other **lime** into six wedges.
2. Loosely wrap the **tortillas** in tin foil then pop in the hot oven to warm through, along with two plates. Finely chop the **fresh red chilli** and put it aside for later.
3. Make your table look respectable - get the cutlery, salt and pepper and drinks laid out nicely.
4. Put a **small non-stick saucepan** on a low heat. Add the **butter** and leave to melt.
5. Crack the **eggs** into a **bowl**, add a pinch of **salt** and **black pepper** and beat with a fork.
6. When the butter has melted, add the eggs to the pan. Stir the eggs slowly with a **spatula**, getting right into the sides of the pan. Cook gently for 5 to 10 minutes until they just start to scramble then turn the heat off - they'll continue to cook on their own.
7. Get two plates and pop a warm tortilla on each one. Divide the scrambled eggs between them then top with a good spoonful of your home-made **Red Beans**.

8. Scatter each portion with grated cheese and as much chilli as you dare, then roll each tortilla up.
9. Spoon **Guacamole** and **sour cream** on top of each one, scatter with coriander leaves and dust with a little **smoked paprika**.
10. Serve each portion with wedge of lime for squeezing over, and tuck in.

Chapter 2

Main Dishes

Neapolitan Pizza

Servings: 6

Ingredients

- **semolina**
- **6 balls Pizza Dough** (*see recipe: Shared/Pizza Dough*)
- **flour**
- **semolina**
- **5 tbsp San Marzano tomato sauce**
- **basil leaves**
- **100 grams mozzarella cheese**

Cookware

- **outdoor oven**
- **spatula**

Instructions

1. Preheat your **outdoor oven** so it's around 450/500°C (842/932°F).
2. Prepare your pizza toppings because from now on you wanna work fast. Sprinkle some **semolina** on your work surface.
3. Use a **spatula** to remove the **Pizza Dough** from the dough box and place it upside down in the **flour**. Sprinkle the bottom of the dough ball generously with **semolina**, then flip it over again so that the top remains the top.
4. Press with your fingertips from both hands in the center of the dough ball towards the outer edges so that the air goes to the crust. Rotate the dough clockwise and make the same movement again until you have gone all around and a nice crust has formed. Now lift the dough and place it on top of your knuckles. Gently stretch the dough and rotate, making circular movements to stretch it into a pizza base of about 25 cm (9.8 inches).

5. Place the base on a lightly floured surface and spread **San Marzano tomato sauce** on it. Add some fresh **basil leaves** and fresh **mozzarella cheese**.
6. Spike up your fire by standing up some small logs of wood against the back panel, this will generate lots of heat and the fire will go up and over the pizza. Sprinkle some flour on your pizza peel and slide the pizza onto it. Use your peel to slide the pizza into your oven and bake the pizza at 450/500°C (842/932°F). Watch out; this can go fast. Rotate the pizza every couple of seconds to prevent burning. After 60 to 90 seconds, your pizza is done. Slice your pizza and enjoy!

Pizza Dough

Servings: 6

Ingredients

- 533 ml **water**
- 24.6 g **salt**
- 80 g **tipo zero flour**
- 1.6 g **fresh yeast**
- 760 g **tipo zero flour**
- **oil**
- **oil**

Cookware

- **bowl**
- **baking tray**

Instructions

2. Add **fresh yeast** and stir until it's fully dissolved. Add the rest of the **tipo zero flour** and use your hand or a spoon to mix it in.
3. Once all the ingredients are mixed, it's time to knead the dough. Knead with one hand while the dough is still in the bowl. After a few minutes, the dough will start to come together. At this stage, the dough can feel a bit dry or flaky, but don't worry, it will all come together.
4. Lightly dust your work surface with flour and transfer the dough onto it. Knead the dough on the work surface for **10-20 minutes**. Form the dough into a ball.
5. Lightly **oil** a bowl and place the dough in it. Brush the dough ball with some olive **oil** to prevent it from drying out and cover the bowl with cling film or a damp towel. Let the dough rest for **2 hours** at room temperature.
6. Divide the dough into 6 pieces, each weighing 230 grams. Now shape the dough into dough balls, and place them on a **baking tray**, and cover them with cling film. You can also use a dough crate for this. Let the dough balls rise at room temperature for 4-6 hours.
